Professional Summary

Quality-focused QA Tester with over 2+ years of experience in Manual, Automation, and Performance Testing. Skilled in designing and executing test cases, finding bugs, and improving application performance. Experienced with Selenium, JIRA, and Load runner, with a solid understanding of SDLC, STLC, and Agile methodologies. Adept at collaborating with cross-functional teams to deliver high-quality, user-centric software solutions within deadlines.

Technical Skills

Programming Languages: Java

Manual Testing: MasterCraft, JIRA

Automation Testing: Selenium WebDriver, TestNG

Performance Testing: Load Runner

API Testing: Postman

App Testing: Browser Stack

Testing Methodologies: SDLC, STLC, Agile, Scrum

Work Experience

Tata Consultancy Services (TCS) , System Engineer

June 2023 – Present

Client : State Bank of India (SBI), Analyst (Agile Quality Assurance)

Mumbai, India

- Creating test Plans, Designing testcases, Test Scenarios, Test case Execution, Defect Management using tools like MasterCraft and JIRA
- Performed manual testing of web and mobile applications to ensure functional accuracy, usability, and reliability.
- Regression Testing: Led rigorous regression test sign offs for every release, ensuring high-quality production deployments.
- Logged and tracked defects through to resolution, ensuring root cause analysis and regression coverage.
- Collaborated with developers, BAs, and product teams in Agile / Scrum environments to ensure timely delivery and high-quality releases.
- Automation Testing: Experienced in Selenium WebDriver for web application automation
- Designed and implemented automation test scripts using Selenium WebDriver with Java, following Page Object Model (POM) and Data-Driven Frameworks.
- Integrated automation suites with TestNG and executed test runs through CI/CD pipelines (Jenkins).
- Performed performance testing using LoadRunner, analyzing response times, throughput, and server resource utilization.
- Participated in requirements review, test planning, and retrospective meetings to improve QA processes. framework to deliver robust and maintainable test suites.
- Stakeholder Collaboration: Facilitated communication with stakeholders and UAT testers, providing guidance on functionality and assigning in resolving UAT issues, achieving 30 percentage faster turnaround on feedback loops.
- Team Management and Collaboration: Served as the sole QA in a team of six developers, managing end-to-end QA responsibilities, supporting UAT testing, and

ensuring 99 percentage on-time delivery of stories.

- Mentorship and Training: Mentored 2 UAT team members to enhance testing skills, provided guidance on UI automation frameworks, and onboarded new team members with constructive feedback.

Education

Sree Chaitanya Institute of Technological Sciences (SCITS) Affiliated to JNTUH,
B. Tech (Electrical and Electronics Engineering)

Sept 2018 – May 2022

Achievements

- Recognized for Leadership Potential within one year and Appointed as Lead, driving team success and delivering high- quality results
- Received Gold Medal for Academic Excellence for outstanding performance during graduation.
